## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 21-31, drawn to an apparatus for inhibiting foot eversion, classified in class 602, subclass 27.
  - II. Claims 32-35, drawn to a method for inhibiting foot eversion, classified in class 602, subclass 27.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method for inhibiting foot eversion can be practiced by another materially different apparatus, i.e. ankle-foot orthopedic brace.
3. A telephone call was made to Mcclung, Guy on 9/26/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
